Power Steel Swim Vista Series 14' X 8'2" X 39.5" Oval Pool Set

Description

The Coleman Power Steel Swim Vista Series 14' x 48" Pool Set is the prime choice for families because of its superior steel frame design engineered for maximum strength and durability. Plus minimal-tool assembly makes this the easy answer for your backyard pool needs. The Coleman Power Steel Swim Vista Series is unique in that it has 4 windows allowing swimmers to see out of the pool while underwater! The pool also features a natural-looking rattan print on the outside and a mosaic print on the bottom. Additional features are corrosion resistant metal frames and a flow control drain valve for easy draining. The extra strong side walls of this pool are constructed with Tritech, a 3 layer reinforced material with a polyester mesh core encased between two layers of high gauge PVC material. This creates a total thickness of 0.40-0.80mm (16-32 gauge) depending on the size of the pool, offering superior strength and durability. The pool is also equipped with a Seal & Lock System for a safe and secure pipe connection. The set includes a safety ladder for easy entry and exit, a pool cover to keep debris out, and a protective ground cloth to protect your lawn and the pool. With proper maintenance, your Coleman Power Steel Swim Vista Series Pool Set will give your family years of summer swimming enjoyment! **WARNING: CHOKING HAZARD -- Small parts. Not for children under 3 yrs.**

Features
